The purpose of the Massachusette official was to emphasize the need of
greater safety in the highways at the
time of year when the number of motor vehicles is steadily increasing and
during a year when the number will
reach the largest figures ever. The idea
that there is nothing else to do but burn

THE NAVAL TREATY.

Having during the debate drawn forth no opposition there should be nothing but clear sailing for the navai restriction treaty when it comes before the senate for action.

There is of course nothing surprising in the indication that there will be no question about its ratification. That has been conceded from the first. It is one of the treaties that has been regarded as highly desirable and one which there was a desire to ratify before the four-power treaty was taken up.

Governor Miller of New York does well in not granting the application for a pardon for Larkin. New York is one state where greater rather than less respect for the law is needed.

It is declared people have come to an unusual degree of understanding of the issues in the coal mining situation. And one of them is that the price of the commodity is far beyond what it ought to be.

The bonus committee of the house may believe it unfair to intimate that the success or failure of the bonus bill will affect the political view of the veterans, but there are others who have decided by different views.
